"Academic users define the Value of high quality eBooks to facilitate high quality teaching and learning outcomes."

Textbooks on ScienceDirect offer today's libraries an exciting opportunity to provide new and highly valuable service to their patrons. Faculty can finally assign a textbook and/or various text/references and provide all students with easy access, giving them equal chance at succeeding because they have the assigned and recommended course content with no financial pressure to find or buy!

With Textbooks in ScienceDirect, students and faculty can use the recommended and required reading they need for their courses anywhere and anytime. Because there is no limit on the number of users who can access, the material will always be there when it is needed. Textbooks are seamlessly integrated within the ScienceDirect platform, making it easy to also find and read related materials such as journals articles, major reference works, eBooks and more.

Keeping in mind the core text content requirement for all AICTE approved institutes across India, we are excited to launch these 18 subject collections completely comprising of textbooks all of which are currently or have been part of adopted text or reference titles across all major institutes in India. The subject collections are specifically constructed to cater UG through PG courses.
